

“A Show Place for those Interested in Forestry”

Please join us for a field tour of the Baxter State Park Scientific Forestry Management Area (SFMA) to view and discuss more than 30 years of Park efforts to implement Governor Baxter’s vision...

“I want this township to become a show place for those interested in forestry, a place where a continuing timber crop can be cultivated, harvested and sold; where reforestation and scientific cutting will be employed; an example and an inspiration to others. What is done in our forests today will help or harm the generations who follow us.”
-Percival P. Baxter 1955

Our tour will be lead by Park Director Jensen Bissell (1997 Austin Cary Practicing Professional Forester Award Winner) and Park Resource Manager, Rick Morrill. Tour highlights will include reviewing: regular and irregular shelterwood systems, forest monitoring efforts, forest reserve systems (including the old growth spruce forest at Frost Pond), and the application of multi-aged silvicultural systems. The SFMA has received regional recognition for exemplary forestry practices.

“A Show Place for those Interested in Forestry”

August 5, 2011

**Baxter State Park
Headquarters
Millinocket, ME**
